Part 3 Common Features & Tips

Part 1 — Teacher Guide

This section explains every tab and feature available to teachers in ARTickle Academy. Teachers access the platform at **/teacher** after signing in.

1.1 Dashboard

The Dashboard is the first screen you see after logging in. It gives you an at-a-glance summary of your teaching activity for the current week and month.

What you can see:

- **Lessons card** — Total number of lessons in the current week view. Click it to go to the full lesson list.
- **Attendance % card** — Percentage of your lessons marked as Present or Taught versus total lessons.
- **My Earnings card** — Your total payroll earnings for the current month (in SAR). Includes any guarantee adjustments.
- **Week Timeline table** — A scrollable table showing up to 50 of your lessons: date, time, student, school, and status. Click any row to open the lesson detail view.
- **Unread admin notes banner** — If the academy admin has left a note on one of your lessons, a red banner appears at the top. Click *View in Lesson Log* to jump directly to those lessons.

What you can do:

- Click any lesson row to open its full detail (student evaluation, notes, status).
- Click **Edit** on any row to update that lesson's status, evaluation scores, or notes.
- Watch the red pulsing dot — it means the admin left a note requiring your attention.

1.2 My Students

This page shows every student assigned to you. You can add new students, search and filter your roster, and export or import student records.

Adding a new student:

- **Student Name** — Full name of the student (required).
- **School** — Select the school from the dropdown. If the school doesn't exist yet, click **+ New** to create it on the spot (requires a 2-letter uppercase school code, e.g. KC).
- **Instrument** — Pre-filled with your instrument but editable (required).
- **Year / Grade** — Optional. Grade 1–12 for filtering and reports.
- **Email** — Optional. Student's or parent's email address.
- **Date of Birth** — Optional. Used for age records.
- Click **Add Student** to save.

Filtering & searching:

- **Grade dropdown** — Show only students in a specific year/grade.

- **Search box** — Live search across student name, instrument, and email.

Import & Export:

- **Export button** — Downloads your students as an Excel (.xlsx) file. Useful for record-keeping.
- **Import button** — Upload an Excel file to bulk-add students. Follow the template format (instructions are included in the exported file as a second sheet).

■ Click any student row to open their full profile — lesson history, attendance rate, enrollment periods, and evaluation details.

1.3 Take Attendance

This is the primary data-entry form for recording lessons. After each class, fill in this form to log what happened, evaluate the student, and save the record.

Section 1 — Lesson Details:

Field	Description
Date & Time	Auto-filled to now. Change it if logging a past lesson.
School	Select the school where the lesson took place.
Student	Select your student (list is filtered to the chosen school).
Type	Individual or Group lesson.
Delivery Mode	In-Person or Online.
Status	Present · Absent (Excused) · Absent (Unexcused) · Cancelled. Cancelled and Absent (Excused) record
Duration	Lesson length in minutes (e.g. 30, 45, 60).

Section 2 — Evaluation (required for attended lessons):

- **Effort (1–5 stars)** — How much effort the student put in during the lesson. Required.
- **Practice (1–5 stars)** — How well the student practiced since the last lesson. Required.
- **What did the student learn?** — Free text: scales, pieces, theory concepts, etc. Use the **AI Rewrite** button to polish your wording automatically.
- **Overall Grade / Level** — e.g. Grade 3, Beginner, Intermediate.
- **Exam Prep Status** — Not started · Preparing · Ready · Completed.
- **Repertoire / Piece Being Studied** — The piece or song currently worked on.
- **Practice Assignment / Homework** — What the student should practice before the next lesson.

Section 3 — Private Notes:

- **Private Notes** — Internal notes visible only to teachers and admins. Not shown to parents or on reports. Use the AI Rewrite button to refine text.

■ If you try to save without Effort or Practice ratings on an attended lesson, the form scrolls to the evaluation section and highlights the missing fields in red.

■ After saving, a blue animated confirmation screen appears briefly, then the form resets so you can immediately log the next lesson.

1.4 Lesson Log

The Lesson Log is a full searchable history of all your lessons. You can filter, edit, add new lessons inline, and export records.

Filtering options:

- **Search box** — Search by student name, teacher name, or lesson ID.
- **Date range** — Set a start and/or end date to scope results.
- **Status filter** — Filter by Present, Taught, Absent (Excused/Unexcused), or Cancelled.
- **Unread notes filter** — Show only lessons that have unread admin notes (also triggered by ?unread=1 URL).

Actions per lesson:

- **Click any row** — Opens a read-only detail popup showing all evaluation fields, notes, and status.
- **Edit button** — Opens a full edit form where you can change status, ratings, notes, and all evaluation fields.
- **Delete** — Admin-only. Teachers see the Edit button only.
- **Add Lesson (+ button)** — Opens the Attendance form inline to log a new lesson without leaving the page.

Export:

- **Export Excel** — Downloads all filtered lessons as an Excel file. Includes date, student, school, type, status, duration, and teacher evaluation fields.

■ *The red pulsing dot next to a lesson row means there is an unread admin note on that lesson. Open the lesson to read and dismiss it.*

1.5 My Bookings

Shows all booking requests that have been assigned to you by the admin. This is a read-only view — teachers cannot create or modify bookings.

What you can see per booking:

- **Student name & instrument**
- **Lesson type** — Trial or Regular.
- **Duration** — in minutes.
- **School** — where the lesson will take place.
- **Requested date** — the preferred date/time from the booking request.
- **Requested by** — which parent or staff member made the request.
- **Notes** — any notes from the requester (shown in italics).
- **Status badge** — Pending · Approved · Converted · Rejected · Cancelled.

Status meanings:

Status	Meaning
Pending	The request is awaiting admin review.
Approved	Admin approved it — waiting to be converted into a scheduled lesson.

Converted	The booking has been turned into a lesson on the timetable.
Rejected	Admin declined the booking.
Cancelled	The request was cancelled.

■ Use the Status filter dropdown at the top to show only active (Pending/Approved) bookings.

1.6 My Weekly Schedule

A read-only view of your recurring weekly timetable as configured by the admin. This shows your fixed lesson slots — not individual lesson records.

What you can see:

- **Active slots grouped by day** — Each day of the week that has scheduled slots appears as a card.
- **Per-slot details** — Start time, end time, student name(s), school, duration, lesson type (Individual/Group), delivery mode (In-Person/Online), and instrument.
- **Slot notes** — Any extra note the admin added to the slot (shown in italic below the slot).
- **Paused slots section** — Slots the admin has temporarily disabled appear dimmed at the bottom.

■ You cannot edit your schedule from this page. Contact your admin to add, change, or pause slots.

1.7 My Payroll

Shows the payroll runs the admin has created for you — official pay periods with totals, payment status, and a line-by-line breakdown of what you earned.

Summary cards at the top:

- **Active Runs** — Count of payroll runs that are Approved, Partially Paid, or Paid.
- **Total Earned** — Sum of totalPayable across all active runs.
- **Received** — Amount already paid to you.
- **Pending** — Outstanding balance still owed to you (highlighted in amber if > 0).

Payroll table columns:

- **Payroll #** — Unique reference number for the run.
- **Period** — The date range covered (e.g. 01 Mar 2026 – 31 Mar 2026).
- **Total** — Full payable amount for the period.
- **Paid** — Amount received so far.
- **Balance** — Remaining amount owed.
- **Status** — Draft · Approved · Partial · Paid · Cancelled.
- **View button** — Opens a detailed breakdown modal.

Line-item detail modal:

- Shows each lesson individually: date, description, hours, hourly rate, and amount.
- **Type** — *lesson* (regular lesson), *guarantee* (minimum-hour top-up), or *manual* (admin adjustment).
- Guarantee rows appear in amber — these are payments added because your actual hours were below the minimum guaranteed hours for that school day.

■ Payroll is prepared by the admin. You cannot request or edit payroll runs from this page.

1.8 My Earnings (Finance)

A personal financial calculator that lets you see exactly what you earned in any month, broken down lesson by lesson, including guarantee adjustments.

How to use:

- Select the **Year** and **Month** from the two dropdowns at the top right.
- The three summary cards update instantly: **Total Earnings**, **Hours Taught**, and **Lesson Count**.

Guarantee adjustments section:

- If you had a school day where your actual teaching hours fell below the school's minimum guarantee, the shortfall is shown here as an amber panel with the date, school, actual hours vs minimum, and the extra amount added to your earnings.

Detailed breakdown table:

- **Date** — Lesson date.
- **School** — Where the lesson was held.
- **Student** — Student taught.
- **Type** — Individual or Group badge.
- **Hours** — Duration converted to hours.
- **Rate** — Effective hourly rate in SAR.
- **Earnings** — Amount earned for that lesson (amber).

■ *Cancelled and Absent (Excused) lessons appear dimmed with 0 SAR — they do not count towards your earnings.*

1.9 My Profile

A read-only view of your teacher record. Shows your personal details, pay rates, and any minimum-hour guarantees configured for you.

Sections:

- **Personal Information** — Your name, teacher code, instrument, and login email.
- **My Rates** — Your base Individual rate (SAR/hr) and Group rate (SAR/hr). If the admin has set school-specific overrides for you, they appear in a table below.
- **Daily Minimum Guarantee** — If the admin has configured a minimum teaching hours guarantee per instrument per school day, the details are shown here (hours/day and whether active).

■ *To change any profile information or rates, contact your admin — teachers cannot edit their own profile.*

1.10 Reports

The Reports page lets you generate and download bulk data exports covering lessons, attendance, and student progress across any date range.

What you can do:

- Select a date range and generate a full Excel report of your lessons.

- Filter by school or student to narrow the export.
- Download the file for your own records or to share with parents.

■ *The teacher Reports view is export-only — you cannot modify any records from this page.*

Part 2 — School Admin Guide

School Admins see only data belonging to their own school. Teacher pay rates, admin-only notes, and financial details are not visible to school admins. School Admins access the platform at **/school** after signing in.

2.1 Dashboard

The School Admin Dashboard gives a real-time snapshot of your school's music programme for the current month.

Summary cards:

- **Students** — Total number of enrolled students at your school.
- **Total Lessons** — All-time lesson count for your school.
- **[Month] Lessons** — Number of completed (non-cancelled) lessons this calendar month.
- **[Month] Hours** — Total teaching hours delivered this month.

Recent Classes table:

- Shows the last 20 lessons at your school, sorted newest first.
- Columns: Date, Teacher, Student(s), Lesson Type, Duration, Status.
- Click any row to open the lesson detail popup.
- **+ Add School Comment button** in the detail popup opens an edit form where you can add two kinds of comments to a lesson.

Adding comments to a lesson (from the dashboard or lesson list):

Comment Field	Visibility	Purpose
School Teacher Comment	Appears on the lesson PDF sent to parents	Used to record your school's feedback on the lesson for the student/parent
Internal Comment	Internal only — never visible to parents or on PDFs	Used for internal tracking notes (e.g. student behaviour, admin follow-up)

■ From the dashboard lesson popup you can also click **Download PDF** to generate a single-lesson PDF report for the parent.

2.2 School Lessons

The full lesson history for your school with powerful filtering, bulk export, and per-lesson comment editing and PDF generation.

Filter row 1 — Search & quick filters:

- **Search box** — Search by teacher name, student name, or lesson ID.
- **Month dropdown** — Show only lessons in a specific month.
- **Status dropdown** — Filter by Present, Taught, Absent (Excused), Absent (Unexcused), or Cancelled.
- **School Period dropdown** — If your school has enrollment periods configured, filter lessons to a specific term/semester.

Filter row 2 — Date range:

- **From / To date pickers** — Fine-grained date range filter. Clears the month dropdown automatically.

Filter row 3 — Student cross-reference:

- **Grade dropdown** — Show only lessons involving students in a specific grade.
- **Email search** — Filter lessons involving a student whose email matches the search.

Actions per lesson:

- **Click a row** — Opens the lesson detail popup (read-only).
- **Edit button** — Opens the school comment editor (School Teacher Comment + Internal Comment).
- **PDF button** — Generates and downloads a single-lesson PDF report suitable for parents.
- **Checkbox** — Select individual lessons for a bulk export.

Export:

- **Export Excel button** — Downloads the currently filtered lesson list as Excel. If checkboxes are selected, only those lessons are exported. Financial columns (school billing rates, teacher pay) are not included.

■ *Billing amounts (SAR) are not shown in the School Lessons view — contact your account manager for financial statements.*

2.3 Students

A read-only roster of all students enrolled at your school. You can filter and search, and click a student to see their full lesson history and evaluation timeline.

What you can see per student:

- **Name** — Student's full name (clickable to open detail).
- **Instrument** — The instrument they study.
- **Teacher** — Assigned teacher.
- **Lesson Count** — Total lessons recorded for this student.
- **Enrollment** — Active school enrollment period badges.
- **Grade** — Year/grade level.

Filtering:

- **Grade dropdown** — Filter by grade level.
- **Search box** — Search across name, instrument, teacher, and email.

Student detail page:

- Full lesson history for that student at your school.
- Attendance summary (present vs absent vs cancelled).
- Evaluation timeline — see how ratings and notes have changed over time.
- Enrollment period information.

■ *School Admins cannot add, edit, or delete students. Student records are managed by the academy admin.*

2.4 School Periods

School Periods (also called Enrollment Periods) define the terms or semesters your school uses. They let you filter lessons and student data by term.

What you can see:

- A list of your school's defined periods, each with a name, start date, and end date.
- Active vs inactive status for each period.

■ *School Periods are created and managed by the academy admin, not by school admins. Contact your admin to add or modify periods.*

2.5 Invoices

The Invoices page shows all invoices issued to your school by ARTickle Academy, along with payment status and history.

Summary cards:

- **Total Invoices** — How many invoices exist for your school.
- **Outstanding** — Total unpaid balance across all active invoices (amber).
- **Paid** — Number of fully paid invoices.
- **Overdue** — Number of invoices past their due date.

Invoice table:

- **Invoice #** — Unique reference number.
- **Period** — Date range the invoice covers.
- **Amount** — Total billed amount.
- **Paid** — Amount received.
- **Balance** — Remaining due.
- **Due Date** — Payment deadline.
- **Status** — Draft · Issued · Partially Paid · Paid · Overdue · Cancelled.
- **Expand (▼)** — Click to see the payment history for that invoice (payment date, amount, method).

Invoice statuses:

Status	Meaning
Draft	Prepared but not yet sent to you.
Issued	Officially sent — payment is now expected.
Partially Paid	Some payment received, balance still owed.
Paid	Fully settled. No balance due.
Overdue	Past the due date with an unpaid balance.
Cancelled	Invoice voided — no payment required.

■ *School Admins cannot pay or modify invoices from the app. Contact your account manager to arrange payment.*

2.6 Reports

The Reports page is an export-only tool that lets you download bulk lesson data for your school in Excel format.

What you can do:

- Set a date range and generate an Excel export of all lessons at your school.
- Filter by teacher or status before exporting.
- Use the file for internal reporting, parent communication, or archiving.

■ *Financial columns (billing rates) are excluded from school admin exports.*

Part 3 — Common Features & Tips

Lesson Statuses — Quick Reference

Status	Icon colour	Counts for earnings?	When to use
Present	Green	Yes	Student attended and lesson was delivered.
Taught	Green	Yes	Same as Present — alternate label used in some schools.
Absent (Excused)	Amber	No	Student gave advance notice of absence.
Absent (Unexcused)	Red/Amber	Yes*	Student did not show and gave no notice. Teacher still gets paid.
Cancelled	Red	No	Lesson was cancelled by the school, teacher, or admin.

■ * Absent (Unexcused) counts towards teacher pay but not as a 'completed' lesson for attendance percentages.

AI Rewrite Button

Several text fields (What did the student learn, Repertoire, Practice Assignment, Private Notes) have a small **AI Rewrite** button next to the label. Clicking it sends your text to an AI model which rewrites it in clear, professional language. The rewritten text is automatically placed back in the field — you can then edit further or keep it as-is. Fields processed by AI are tagged internally so the system knows they were AI-assisted.

Lesson PDFs

School admins can generate a per-lesson PDF report from the Lessons page or the Dashboard. The PDF includes: lesson date & time, teacher name, student name, status, duration, and the **School Teacher Comment** field (if filled in). It does **not** include teacher pay rates, internal admin notes, or billing amounts.

Data Privacy — What Each Role Can See

Data	Teacher	School Admin
Own lesson details	Full access	Full access (their school)
Teacher pay rates	Own rates only	Not visible
School billing rates (SAR)	Not visible	Not visible
Admin internal notes	Not visible	Not visible
Other teachers' pay	Not visible	Not visible
Student personal info	Own students	All school students
Invoice amounts	Not visible	Own school invoices
Payroll runs	Own payroll only	Not visible

Getting Help

- If something is not working as expected, contact the ARTickle Academy administrator.
- To update your pay rates, profile details, or timetable — reach out to admin.
- To add or change school periods, billing settings, or enrollment — contact admin.
- For invoice queries, contact your ARTickle account manager.
