Visual Walkthrough of Every Tab

## TAB 1: DASHBOARD

**Your school snapshot at a glance.** The first page shows real-time stats, recent lessons, and quick actions.

| Section                 | What it shows                                                              | What you can do                                                     |
|-------------------------|----------------------------------------------------------------------------|---------------------------------------------------------------------|
| ■ Summary Cards (Cards) | 4 Cards: Students, Total Lessons, This Month's Lessons, This Month's Hours | Click Lessons, This Month's Hours details                           |
| ■ Recent Classes Table  | Table of lessons with teacher, student(s), type, duration, status          | Click any row to view/edit the lesson                               |
| ■ Lesson Detail Popup   | Lesson info: date, time, teacher, student(s), notes                        | Click notes - Add School Comment</b> to add feedback visible to all |
| ■ Comment Editor Modal  | 2 Text fields: School Teacher Comment + Internal Comment                   | Save or optionally download a PDF report of the lesson              |

### Pro Tips:

- Hover over a lesson row to see more details before clicking.
- The School Teacher Comment appears on the PDF sent to parents.
- Internal Comment is never shared — use for internal notes only.
- Download lesson PDFs to archive or email to parents directly.

## TAB 2: SCHOOL LESSONS

**Complete lesson history with advanced filtering and bulk export.** Find any lesson in seconds using multiple filters.

| Filter Row | Controls                                    | Purpose                                                     |
|------------|---------------------------------------------|-------------------------------------------------------------|
| Row 1      | Search box + Month + Status + School Period | Quick filters for the most common searches                  |
| Row 2      | Date From / Date To pickers                 | Fine-grained date range without the month filter            |
| Row 3      | Grade + Email filters                       | Find lessons involving specific students by grade or email  |
| Checkboxes | Check individual lessons or Select All      | Bulk-select for export (only selected lessons are exported) |

### Actions per lesson row:

- **Click** → Opens read-only lesson detail popup
- **Edit** → Opens comment editor (School Teacher Comment + Internal Comment)
- **PDF** → Downloads a single-lesson PDF (for parents or records)
- **Checkbox** → Select for bulk export

## TAB 3: STUDENTS

**Read-only student roster for your school.** View all enrolled students and drill down into individual records.

| Column     | Shows                      | Clickable?                  |
|------------|----------------------------|-----------------------------|
| Name       | Student full name          | ✓ Click to see full profile |
| Instrument | What instrument they study | No                          |

|              |                                         |    |
|--------------|-----------------------------------------|----|
| Teacher      | Assigned teacher name                   | No |
| Lesson Count | Total lessons recorded for this student | No |
| Enrollment   | Active school enrollment period badges  | No |
| Grade        | Year/grade level (e.g. Grade 5)         | No |

### What you can see on student detail:

- Full lesson history for that student at your school
- Attendance % (how many lessons attended vs total)
- Evaluation timeline showing ratings and notes over time
- Enrollment period information

## ■ TAB 4: SCHOOL PERIODS

**Enrollment periods define your school's terms/semesters.** Used for filtering lessons and organizing school calendar.

Each period has: **Name** (e.g. 'Spring 2026'), **Start Date**, **End Date**, **Active/Inactive status**

■■ *School Periods are created by the academy admin. Contact admin to add or modify terms.*

## ■ TAB 5: INVOICES

**All invoices issued to your school.** Track billing, payment status, and outstanding balance.

| Card           | Displays                         |
|----------------|----------------------------------|
| Total Invoices | Count of all invoices            |
| Outstanding    | Amount still owed (amber if > 0) |
| Paid           | Count of fully paid invoices     |
| Overdue        | Count of past-due invoices       |

### Invoice statuses in the table:

- **Draft** → Prepared but not sent
- **Issued** → Sent — payment expected
- **Partially Paid** → Some payment received
- **Paid** → Fully settled ✓
- **Overdue** → Past due with outstanding balance

■■ *Expand any invoice row (▼) to see payment history.*

## ■ TAB 6: REPORTS

**Bulk data export tool.** Download lesson records as Excel for your own records, reporting, or parent sharing.

### How to use:

- Set a date range using the From/To pickers
- Optionally filter by teacher or status
- Click **Export Excel** button
- Your browser downloads the Excel file

### What's included in the export:

- Student name
- Date & time
- Teacher
- Type
- Duration
- Status
- Evaluation notes

## ■ QUICK REFERENCE CHEAT SHEET

---

### Keyboard & UI Tips:

- Use search boxes to quickly find students or lessons by name/ID
- Click column headers to sort (on most tables)
- Checkboxes let you bulk-select for export
- Red badges = urgent status (Cancelled, Overdue)
- Green badges = positive status (Paid, Present)
- Amber badges = pending (Partial, Absent Excused)

### Common Tasks:

| Task                         | Steps                                                                           |
|------------------------------|---------------------------------------------------------------------------------|
| Find a specific lesson       | Go to <b>School Lessons</b> → Use Search or Date filters → Click row to view    |
| Add a note for parents       | Dashboard or School Lessons → Click lesson → <b>+ Add School Comment</b> → Save |
| Export all September lessons | <b>Reports</b> → Set date range (Sept 1-30) → Click Export                      |
| Check school payment status  | <b>Invoices</b> → See <b>Outstanding</b> card → Expand invoices to see details  |
| View a student's history     | <b>Students</b> → Click student name → See all lessons & attendance             |
